Muinín Catalyst STEAM Education for Sustainable Development and Futures Literacy

SDG2 The Future Of Food

Programme Phase 3: Implementation

Micro-Module 7: Media Communication 2 - Poster

Subject Areas: Climate Action and Sustainable Development, Design, English, Enterprise, Technology

SDG2 Media Communication

SDG2 The Future of Food

Micro-Module 2:

Poster Design

Subject Areas: Climate Action and Sustainable Development, Design, English, Enterprise, Technology

Micro-module Summary: Media Communication: Poster Design

This micro-module introduces poster design and has been devised to give learners basic skills of analysing and designing posters. Ideally, this micro-module is delivered as a micro-project. The micro-module has 3hrs of taught time and additional self-directed learning required to complete their posters after lesson 3.

In this module, the learner will:

- develop skills of organising, planning, and producing media outputs
- develop awareness of the basics of media production
- practice problem solving and critical thinking skills as individuals and part of a group
- build transferable skills and capacity that will support learners to share any media they produce, whether in their personal or professional futures
- be introduced to tools and methods for media production

Materials

- Lesson plans
- Accompanying resources
- Optional assessments
- Skill support resources
- Internet Access required

SDG2 Media Communication

Media Communication 2 – Poster Design

Lesson 1 What is a Poster?
In this lesson, learners will gain awareness of basic poster production including planning and learning the core elements of poster design.

Lesson 2 Creating Your Poster
In this lesson, learners will explore the SDGs within their local context with a view to selecting a local issue and related SDG as the topic of their poster.

Resources: Worksheets: Poster Analysis Sheet 2, Step-by-Step Poster Design, Poster Analysis Sample Sheet

Lesson 3 Creating Your Poster 2
In this lesson, learners will explore the core elements of poster design by developing their own poster using Canva.

Resources: Worksheets: Poster Resource, Step-by-Step Poster Design

Using the resources

If you wish to use these resources, we can offer an induction, forward planning and online support throughout the module to help you plan integration into your projects and timetable. To register for this option, please contact e:hello@futurefocus21c.com

For more information on the resources please visit www.muinincatalyst.com

Setting up an online learning environment for the lessons on this module:
Our lessons integrate the use of virtual learning environments. To ensure seamless use of our lessons, a module should be setup on your school's virtual learning environment such as Teams, Google Classroom, etc. Learners are encouraged to upload documents to share with their peers.

You can also use Google Sites or Microsoft Sway to encourage learners to present their work over the year - this can easily be set up to reflect the aims of TY and provide a showcase for their work as well

Setting up a Canva Education account.
As our lessons integrate design, our lessons also refer to Canva. Educators and schools are able to open a free Canva for Education account by registering here: https://www.canva.com/education/ Canva for Education provides primary and secondary school teachers and students with premium features and templates. You can then also set up lessons and invite your learners to the class.
